Soft Skills: Problem Solving, Leadership, Communication, etc.

Projects

Employee Management: It's a software that helps the company to organize their employees data in a better way which will make their task easy and also easy retrieval of data, it provides the facility to insert, modify, delete, and retrieve the data of any employee. Technology I used is Python and My SQL.

E-Commerce Website: (YourBucket): Inspired by popular online market places like Amazon and Flipkart. It has various sections with different varieties including groceries, health care, dresses, etc. with different women, men categories.
